

RELIABLE TRUSS AND COMPONENTS, INC.

CUSTOM FABRICATION Innovative Design & Manufacturing

**Set Apart From the Competition
by Excellence in Sales, Service,
Design, and Production**

Our expert designers and engineers can design whatever you can imagine for your project.

Our **state-of-the-art manufacturing** facilities will produce your components accurately and we'll deliver them on schedule.

Our comprehensive approach gives you the advantage of a **cohesive component design** package.

Our multiple product offerings provide greater project flexibility, supported by a highly capable and innovative in-house staff.

Precise custom design with 3D CAD software provides a computer generated **preliminary viewer files** that can be sent for you to review a 3D model of your custom project.

Your projects will be "in budget" with our competitive prices, plus **"on schedule"** with our higher quality and more feature-rich products that make site work move quickly.

Reliable Truss and Components, Inc. is a division of National Lumber Company. With the infrastructure of National Lumber and the expertise of Reliable Truss, you will be assured of receiving the best products and professional services.

Our in-house design and engineering staff includes **registered engineers** with seals for all of New England.

Visit our website for more detailed information about our capabilities.

**Since 1954,
New England builders
have trusted Reliable Truss
for their structural needs.**

Floor and Roof Panels:

- Pre-assembled and shipped to site
- Labeled placement plan
- Quicker build times
- No waste materials to discard

Cupolas, Dormers, Porticos:

- Rough Framed or Finished
- Finish Options:
 - o Trim, Siding and Windows
 - o Roofing (Cupolas Only)
 - o Weathervane/Finial

Precision End Trim:

- Full lifts cut to millimeter precision
- Up to 60' lengths can be cut
- Floor joists and rafters cut on CNC machine
- Layouts for complicated roofs

Timber Trusses and Brackets:

- Metal plate, hidden fasteners or wooden pegs
- Price dependent on material, size, and style
- Timber, Glulam, or Versalam
- Shipped as a kit or assembled

Miscellaneous Prefabrication:

- Pergolas, Gazebo, Baseball Dugout, or custom design.
- Shipped as a kit, all parts precut, drilled and notched for easy assembly with instructions. No tape measure needed!
- If we can ship it, we can build it. Price depends on material.
- Ask us to quote your next project.
